

Network Engineer – Full Time

EX Networks – London – SE8 3DX

EX Networks is an ISP and IaaS Provider that was founded on the principle that no two clients are alike. Since 2008 we have been designing and managing complex infrastructures for a range of clients, from established enterprises to clients in emerging markets such as AI and IoT. We partner with our clients to provide innovative solutions for their unique challenges, whether it's ongoing infrastructure improvements, expansion plans, or migration of legacy services into a "Cloud First" strategy.

We have a MPLS enabled Metro Area Network across 7 London datacenters, with plans to expand into mainland Europe in early 2020.

Job Description

EX Networks is seeking a highly motivated individual ready for a new challenge. Candidates should have experience of working in a service provider environment, strong technical knowledge and good communication skills.

Key Responsibilities

- Provisioning and supporting client services.
- Monitoring and managing the EXN core network.
- Working as part of a team and individually to deliver internal and client projects.

Key Skills

- Current Cisco CCNP-SP or CCNP-R&S certification.
- Working experience in Cisco IOS-XR (ASR9K).
- Experience in BGP, OSPF, MPLS, VPLS, L2/L3 VPNs, HSRP/VRRP and STP/RSTP.
- Experience working in a service provider environment.
- Ability to communicate in a clear, polite and friendly manner, both written and verbal.
- Strong experience and track record of delivering complex network solutions and accompanying documentation.
- Strong organisational skills and ability to multi-task in a fast-paced business environment.
- Self-motivation with a keen desire to develop new skills and master new technologies.

Desirable Skills

- Experience in working in Data Centres.
- Experience or knowledge of EVPN, VXLAN and IPv6 technologies.
- Experience in JUNOS.
- Experience in VMware, Linux and AWS.
- Full UK drivers license.
