

PRIVATE RACK COLOCATION

Available in quarter, half and full size, our private racks in Telehouse East are 800mm wide and come with at least 100Mbps of IP transit included.

Our client portal allows remote reboots, custom labelled PDU ports and real time power usage.

Quarter and half racks are subject to availability, please speak to our sales team for more information.

SHARED RACK COLOCATION

Our collocated devices are hosted in our 800mm wide shared rack, physically managed by EX Networks engineers.

Our client portal allows remote reboots for your devices, giving you control from your desk.

All collocation packages come with 50Mbps of IP transit included and OOB serial console ports for remote access to your network equipment.

POWER	SPACE	SETUP	MRC
0.25 amp	1U	£100.00	£120.00
0.5 amp	1U	£100.00	£180.00
1 amp	2U	£100.00	£360.00
None	+1U		£60.00

POINT TO POINT CIRCUITS

EXN can provide MPLS pseudowires between on-net datacentres, extending your network across multiple facilities. This can be thought of as a single virtual ethernet cable between your sites, providing a simple and reliable solution for your East to West traffic.

For larger requirements, we can also offer 10G/100G DWDM wavelengths between our sites.

Data Centres include:

Telehouse East (THE)	Telstra London Hosting Centre (LHC)
Equinix Slough (LD4/5/6/7)	Equinix LD8 (formerly HEX)
Virtus Enfield	Virtus Slough
Volta	Global Switch 2 (GS2)
Iron Mountain AMS1	DRT Dublin (Blanchardstown)

CAPACITY	SETUP	MRC
1G MPLS	£300.00	£300.00
10G Wave	£500.00	£500.00
100G Wave	POA	POA

IP TRANSIT - AS35266

Our multihomed IP transit is perfect for customers requiring the best routes to all corners of the globe. EXN can provide both IPv4 and IPv6 transit, either announcing your IP addresses or providing you with a dedicated range.

COMMIT	SETUP	MRC PER MB
> 100 Mbps	None	£1.50
> 200 Mbps	None	£1.25
> 300 Mbps	None	£1.00
> 500 Mbps	None	£0.75
Flat 1G	None	£0.45

Our Looking Glass can be found here: <https://lg.as35266.net>

INTELLIGENT HANDS

Our 24/7 support team with industry wide certifications ranging from the network to the application layer will look after you and your data.

In an emergency, our centrally located offices and engineers deployed in the Docklands on a daily basis means you can save valuable minutes when time is the most critical factor.

DESCRIPTION	RECURRING	PERIOD
Intelligent Hands - Working Hours	£100.00	Hourly
Intelligent Hands - Out Of Hours	£150.00	Hourly
